

EVENT VIOLATION
INSPECTOR'S STATEMENT
MINERALS REGULATORY PROGRAM

Company/Mine: Decorative Developments, Developments 1 Mine
 Permit #: S0350033

CO MC2007-03-06
 Violation # 1 of 1

SERIOUSNESS

1. What type of event is applicable to the regulation cited? Refer to the DOGM reference list of event below and remember that **the event is NOT the same as the violation.** Mark and explain each event.

- | | | |
|-------------------------------------|----|--|
| <input checked="" type="checkbox"/> | a. | Activity outside the approved permit area. |
| <input type="checkbox"/> | b. | Injury to the public (public safety). |
| <input type="checkbox"/> | c. | Damage to property. |
| <input checked="" type="checkbox"/> | d. | Conducting activities without appropriate approvals. |
| <input type="checkbox"/> | e. | Environmental harm. |
| <input type="checkbox"/> | f. | Water pollution. |
| <input type="checkbox"/> | g. | Loss of reclamation/revegetation potential. |
| <input type="checkbox"/> | h. | Reduced establishment, diverse and effective vegetative cover. |
| <input type="checkbox"/> | i. | No event occurred as a result of the violation. |
| <input type="checkbox"/> | j. | Other. |

Explanation: The operator was conducting mining operations outside the approved permit area and had exceeded the five-acre limitation for this site.

2. Has the event or damage occurred? Yes
 If yes, describe it. If no, what would cause it to occur and what is the probability of the event(s) occurring? (None, Unlikely, Likely).

Explanation: An area of 8.65 acres had been disturbed in this area, but the notice of intention and reclamation surety only allowed for five acres of disturbance.

3. Did any damage occur as a result of the violation? Yes

If yes, describe the duration and extent of the damage or impact. How much damage may have occurred if the violation had not been discovered by a DOGM inspector? Describe this potential damage and whether or not it would extend off the disturbed and/or permit area.

Explanation: The only damage was the surface disturbance.

B. DEGREE OF FAULT (Check the statements which apply to the violation and discuss).

- ☐ Was the violation not the fault of the operator (due to vandalism or an act of God), explain. Remember that the permittee is considered responsible for the actions of all persons working on the mine site.

Explanation: _____

- ☒ Was the violation the result of not knowing about DOGM regulations, indifference to DOGM regulations or the result of lack of reasonable care.

Explanation: The operator did not take adequate care to ensure the permitted disturbance acreage was not exceeded. Additional rock was available outside the boundaries, and the equipment operators probably did not have instructions to stay within certain limits.

- ☒ If the actual or potential environmental harm or harm to the public should have been evident to a careful operator, describe the situation and what, if anything, the operator did to correct it prior to being cited.

Explanation: _____

- ☐ Was the operator in violation of a specific permit condition?

Explanation: _____

- ☐ Has DOGM cited the violation in the past? If so, give the dates and the type of warning or enforcement action taken.

Explanation: This specific operator has not previously received a violation or cessation order, but the company is associated, though not directly, with Decorative Landscaping which has received two previous cessation orders. While the two companies do not share officers, they have the same address, and equipment operators work for both companies.

Was any economic benefit gained by the operator for failure to comply?
If yes explain. Yes

Explanation: The operator was able to take and potentially sell rock from an unpermitted area.

GOOD FAITH

1. In order to receive good faith for compliance with an NOV or CO, the violation must have been abated before the abatement deadline. If you think this applies, describe how rapid compliance was achieved (give date) and describe the measures the operator took to comply as rapidly as possible.

Explanation: The cessation is not yet fully abated.

2. Explain whether or not the operator had the necessary resources on site to achieve compliance.

Explanation: _____

3. Was the submission of plans prior to physical activity required by this NOV / CO? _____ If yes, explain.

Explanation: _____
